

Health & Public Service

Education Plan (Sequenced): Vascular Technology

Degree/Certificate: Enhanced Skills Certificate

Major Code: 7026 TSI Required

The Echocardiography and Vascular Technology Programs provide the training and skills needed to enter this in-demand field in the medical community. Both echocardiography and vascular technology are specialized skills that involve examining a patient's heart through ultrasonography. By partnering with local hospitals, these programs provide hands-on training with small class sizes that offer students the one-on-one training they need to be successful.

Year 1: Semester 1

Course	Semester Credit Hours
DSVT 1300 Principles of Vascular Technology	3
DSVT 2200 Vascular Technology Applications	2
Total	5

Year 1: Semester 2

Course	Semester Credit Hours
DSVT 2461 Clinical +	4
DSVT 2335 Advanced Non-Invasive Vascular Technology	3
Total	7

+ Capstone Experience.
