

Professional Licensure or Certification Disclosure

Cosmetology Associate of Applied Science

This disclosure is being made in compliance with federal regulation 34 CFR §668.43(a)(5)(v)

Hill College's Cosmetology program is recognized by the Texas Department of Licensing and Regulation (TDLR) and provides eligibility to sit for the Cosmetology Operator practical and written exams.

Students can read about the Cosmetology Operator exam eligibility requirements at the [TDLR website](#).

- Hill College has determined that the curriculum of the Cosmetology program meets the state educational requirements for licensure or certification in Texas.
- Hill College was unable to determine if completion of the curriculum of the Cosmetology program meets the state educational requirements for licensure or certification in the other 49 states and the U.S. territories.

Please be aware that there may be additional professional licensure or certification requirements like professional examinations, continuing education, background checks, years of work experience, fingerprinting requirements, etc. which are not covered by academic program's curriculum. Additional requirements may differ by state. Current and prospective students are strongly encouraged to consult with their program coordinator to provide their location or the state at which they desire to be licensed or certified to seek information and additional guidance.

Hill College strives to ensure that the information provided on this page is accurate and up to date. However, as professional licensure and certification requirements are subject to change at any time, students are strongly encouraged to regularly check with the certification boards and other credentialing agencies to confirm professional licensure and certification requirements for their program of study.

For more information, please contact Christopher Andry, **Cosmetology** Program Coordinator
